

A webinar series brought to you by  
Schwabe Pharma Asia Pacific

Speaker:

**Prof. María Sagrario Manzano Palomo**

MD, PhD

Neurology department

Infanta Leonor Hospital, Madrid

Sagrario Manzano is a clinical neurologist at the Infanta Leonor Hospital, Madrid. She is the chief editor and coordinator of the Spanish Dementia Guidelines (Spanish Society of Neurology, 2018), and the group coordinator for “Behavioral Neurology and Dementias of the Spanish Society of Neurology” (Nov 2014 - Jan 2019). She is a member of various scientific committee, including the project “Know Alzheimer” (STADA) and the project Clic Medico ([www.clicmedico.com](http://www.clicmedico.com); IMC Group).

She is also a member of the “Global Alzheimer’s Association Interactive Network (GAAIN)” in collaboration with Infanta Cristina Hospital, Madrid. She has participated in the “Spanish consortium on Amyloid PET scans in clinical practice” and other clinical studies on the rational use of “cognitive enhancers” to treat patients with MCI. She has huge experience in clinical practice on how to manage patients with dementia of all types and has participated in multiple projects involving caregivers on helping them to manage patients with cognitive impairment.
